

TKPI MM Global Credit Ex Financials Fund - Unhedged

Fund description

The fund invests in corporate bonds, excluding bonds issued by the financial sector.

TKP Investments (TKPI) uses a structured multi-manager investment process for asset management. This means that on the basis of an intensive selection process, specialized external managers manage the assets. The investments are passively managed. In principle, one external manager is appointed for cost reasons.

The fund has a Socially Responsible Investment Policy. Do you want to know more?

The fund excludes investments in "Financials". This exclusion is based on the sector classification of Bloomberg Barclays. This in particular excludes banks and insurers. Another sector classification is used for the sector survey; the Bloomberg Industry Classification System. This uses a different method, which means that companies can still be classified as "Financials" in the look-through, while the fund meets the investment restrictions. This mainly concerns credit card companies, investment companies and real estate firms.
