

Key Investor Information

This document provides you with the key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Aegon Global Multi Manager Credit Fund – participation class I

This fund is managed by Aegon Investment Management B.V.

Objectives & Investment Policy

- The investment objective of the Fund is to seek long term capital growth measured in euro, mainly through investments directly or indirectly in ‘investment grade’ bonds issued by corporations and/or bonds (or instruments with similar exposure) issued by EMU governments.
- The investment policy is to outperform the benchmark of the Fund. The benchmark of the Fund is the BofA Merrill Lynch EUR Corporate Index in Euros. The benchmark is a widely dispersed, market-capital-weighted and international index is “total net return” and the measured portfolio performance includes incurred costs.
- The investments of the Fund are effected within the ‘multi-manager’ concept whereby multiple selected specialised investment managers are assigned through detailed mandates.
- You can buy and sell your participations daily (on each business day of the Fund).
- The Fund does not distribute dividend. Any income earned is reinvested.

Risk and Reward Profile

- The indicator is based on historical data and may not be a reliable indication of the future risk profile of the fund.
- The risk category shown is not a target or a guarantee and may change over time.
- The lowest category does not mean risk free.
- Investments are subject to interest rate fluctuations which may affect both the amount paid to the fund by the issuer and value of the fund.
- The bonds in which this Fund invests are primarily of investment grade.
- Bonds and other debt securities are subject to both actual and perceived measures of creditworthiness. The ‘downgrading’ of a rated debt security or adverse publicity and investor perception could decrease the value and liquidity of the security.
- Other particle risks are:
 - a. yield risk, including the fact that the risk may vary in accordance with each choice of asset;
 - b. risk of changes in the value of the capital, including the potential risk of erosion caused by unit withdrawals and profit distributions that exceed the investment return;
 - c. the general risk of inflation, which will also affect the investment returns;
 - d. the fact that financial and fiscal legislation and regulations are subject to change, and that a favourable circumstance at the time of joining may change for the worse.

- The Fund is subject to the following product-specific risks:
- a. the (temporary) reduction in negotiability of the units of a collective investment scheme;
 - b. the risk of using derivatives;
 - c. the risk of the entire market or an asset category falling, which will affect the price and value of the assets.

Furthermore the overview below contains a further statement of the product-specific risks. These risks are ranked according to their impact and relevance.

1. Decrease of market value risk, currency risk
2. Concentration risk (investments/markets)
3. Inflation risk, interest risk, redemption risk, re-investment risk, interest rate risk, volatility risk, derivatives risk, liquidity risk, spread risk, settlement risk, country risk, custody risk, concentration risk (debtors), operational risk and risk of leverage.

From a risk point of view and potentially adding value, the Fund can use other financial instruments, techniques, financial derivatives and structures. Some examples are cash and bond futures, currency forwards, currency futures, structured notes, cash, money market instruments and/or units in funds investing in instruments that meet the above criteria. In the event that new techniques, instruments and/or other structures will become available within the financial markets, which are suitable within the investment policy within of the Fund and can be justified by the changed circumstances according to the fund manager, the fund manager is allowed to use certain techniques, instruments and/or structures.

Securities lending: The Fund will not enter into securities lending arrangements.

Loans: The Fund shall not take on any loans, except on a temporary basis for liquidity purposes.

Financial risks: The value development of the participations in the Funds depends on developments in the capital, securities, currency and commodity markets. There is a chance that your

investment will increase in value; however, it is also possible that your investment will generate little to no income and that

your deposit will be wholly or partly lost in the event of an unfavourable price trend.

Charges for this Fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it.

One-off charges taken before or after you invest	
Entry charge	0.25%
Exit charge	0.25%
Charges taken from the fund over a year	
Ongoing charges figure (maximum)	0.25%
Charges taken from the fund under certain specific conditions	
Performance fee	Applicable

These charges reduce the potential growth of your investment.

The maximum ongoing charges figure may vary from year to year. It excludes:

- Performance fees (where applicable)
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling shares in another collective investment undertaking.

A Management Fee (base fee and if applicable performance fee) will be charged by the Fund Manager directly to the Participant.

For more information about charges, please see Section 16 and the Schedule in the prospectus for this Fund, which is available on the website www.tkpinvestments.com.

Past Performance

The charts shows the Funds annual performance in EUR for each full calendar year since launch in 2009.

Performance of the Fund is net of fees, taxes and other costs. The value of investments and the income derived therefrom may as well fall as rise and investors may not get back the amount invested.

Future returns cannot be predicted in advance. Past performance is no guarantee of future returns.

The Fund is established on September 25, 2009
